1 of 1 review helpful Not What I Thought By randirobot I didn t realize how small this product was It really is a wedding planner in a box with small index cards with tips on it It was helpful at first especially with the timeline

However I haven't even used it in about 2 months. It was easy to carry around with me in my purse which is a plus. I would have preferred a binder with paper to write on. 0 of 0 review.
