1 of 1 review helpful Some Good Reminders for Rekindling a Long Term Relationship By Geraldine The catchy title of this book caught my attention so I decided to give a try I found the tongue in cheek beginning to this book a bit too long and tedious but it did make for a more original approach to the topic The author then goes on to suggest some practical and easy ways to save rekindle and renew a r Don t just plan your wedding Plan your marriage the rest of your lives together Funny and concise Don t read if you don t have a sense of humor and if you re not looking to save your marriage The author is obviously well versed in common issues facing married couples that tend to eat away at their sense of connection Excell
