By Ken Benton : Prepping for the day the SHTF: A complete bug-out and survival plan for life after doomsday.
if you were sticking it out alone after shtf or trying to help rebuild a small society what would be in your shtf library will the books you have currently be all something that i think might be good for you to produce as well as something readers need and would be interested in is a pamphlet they could print out prior to an Prepping for the day the SHTF: A complete bug-out and survival plan for life after doomsday.:

2 of 2 review helpful How to Set Up Your Bug Out Location By J Robideau While the title is very general and overpromises this book does have some good information specifically about setting up a survival location The most helpful portions of this book were about selecting a location for a survival shelter and setting it up for success The book was relatively short and not much detail was included but there w Bad times may be coming We all know that right But what are we doing about it to prepare What can we do We are not talking about localized natural disasters which are temporary situations and relatively easy to recover from These bad times which may very well loom on the horizon as we speak could render all the money in our bank accounts worthless When the trucks stop rolling there is no more food Even if you have some stored up how long will it last
