2 of 2 review helpful the most comprehensive wedding planning guide I have ever read By Claire The Coffeeholic
Bookworm I have been at my wits end when I had my wedding ten years ago We actually didn't have any wedding
planner who could help us out with our wedding ten years ago While the event was done tastefully in my opinion I still
believe that there were a lot of things we weren't able to do during the wedding The number of weddings is on the rise
but these days most couples don't have the time to plan this special day This book was written to assist every bride and
groom who needs to plan their big day by making a detailed checklist including advice on transportation locations
reception options catering protocol photography guest services the dress the groom's tux the rings the gifts the cake the
best man and maid of honor and ultimately the wedding ceremony This book is the best manual ever written with a
detailed explanation of all that one will never require to plan and organize the perfect wedding
ceremony Nicole Smith As we all know planning a wedding
