DIY: How to Build a Solar Water Distiller: Do It Yourself - Make a Solar Still to Purify H2O Without Electricity or Water Pressure:

7 of 7 review helpful You must pay for her instructions By Pnord I got this book as solar water distillation was something I had never heard of I had plans to make a solar distiller after reading the book I am not the type of person that can construct something by looking at photos of it with a list of what was used especially when the wood the glass sits on has to be cut on an angle for correct drainage If you need ste Build a single basin style solar water distiller yourself to purify water without electricity or water pressure Beware using potentially poisonous materials in your solar still even 100 silicone is toxic unless it is food grade This book covers how stills work the easy better and best solar stills commercial stills kits and plans that are available and how to build your own cheap and easy for simple water purification using just the sun s energy
