By Rosemary Morrow : Earth User's Guide to Teaching Permaculture this is only a partial list of staff and instructors the actual roll of teachers is much more extensive leadership council members katrina tobin is earthskills why habla ya spanish schools live the most amazing learning experience and together lets find ways to make the world a better place top rated by students most Earth User's Guide to Teaching Permaculture:

2 of 2 review helpful A practical piece By William R Crandall A straightforwardly organized practical piece It

assumes some exposure to Mollison or Holmgren and does not go beyond them conceptually however it provides immediate practical detail with respect to developing and teaching permaculture classes and a relatively simple framework for teaching that may not be obvious from works with the depth and scope of Molli Permaculture design is a powerful tool for creating systems that meet our human needs but also support the ecosystem as a whole It applies ecological principles to designing gardens farms community projects even entire human settlements The standard seventy two hour Permaculture Design PDC course is taught all over the world to farmers gardeners design professionals and world changers who want to practically create a healthier more eq Even after teaching permaculture for over a decade I still found plenty of useful information and tips here It is packed full of interesting technical details which as well as being valuable in themselves serve as thorough reminders of what to include Thi
